Section I. Chemical Product and Company Identification

Supplier:

Hummel Croton Inc.
10 Harmich Road
South Plainfield, NJ 07080
(908)-754-1800

Chemical Name: Hydrazine Monohydrochloride

Synonym: Hydrazine Hydrochloride

CAS Number: 2644-70-4

Chemical Formula: H₄N₂•HCl

HMIS Rating

Health 3

Flammability 0

Reactivity 1

Personal Protection E

Section II. Composition and Information on Ingredients

Material	CAS#	%	OSHA	ACGIH
Hydrazine Monohydrochloride	2644-70-4	95+%	0.1 mg/m ³ Skin*	0.013 mg/m ³ Skin*

* These values for Hydrazine. Hydrazine Monohydrochloride contains 46% Hydrazine.

Section III Hazards Identification:

Acute Health Effects: ACUTE EFFECTS: May be fatal if inhaled, swallowed, or absorbed through skin. Material is extremely destructive to tissue of the mucous membranes and upper respiratory tract, eyes and skin. Inhalation may be fatal as a result of spasm, inflammation and edema of the larynx and bronchi, chemical pneumonitis and pulmonary edema. Symptoms of exposure may include burning sensation, coughing, wheezing, laryngitis, and shortness of breath, headache, nausea and vomiting. May cause allergic reaction. Can cause CNS depression. May cause convulsions. EXPOSURE CAN CAUSE: Damage to the eyes. Damage to the liver. Damage to the kidneys. Damage to the lungs. Blood effects ACUTE INHALATION: Inhalation may irritate the respiratory tract. Symptoms may include coughing, shortness of breath, sore throat and runny nose. If sufficient amounts are inhaled and absorbed, symptoms may resemble those in acute ingestion. ACUTE SKIN CONTACT: Skin contact may cause irritation with symptoms of redness, swelling, itching and pain. ACUTE EYE CONTACT: Eye contact may cause irritation with symptoms of redness, swelling, itching, tearing and pain. ACUTE INGESTION: Ingestion may cause gastroenteritis (inflammation of the lining membrane of the stomach and intestines) with abdominal pain, nausea, vomiting and diarrhea. Systemic effects may follow and may include ringing of the ears, dizziness, elevated blood pressure, blurred vision and tremors

Chronic Health Effects: Carcinogen. May alter genetic material

Acute Health Effects: Hydrazine is listed by NTP (sufficient evidence of carcinogenicity from studies in experimental animals), IARC (Possibly Carcinogenic to Humans: Limited evidence in humans in the absence of sufficient evidence in experimental animals.) and regulated as a carcinogen by NIOSH (carcinogen defined with no further categorization).

Section IV. First Aid Measures

First Aid For Eye: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Call a physician.

First Aid For Skin: In case of contact, flush skin with water. Wash clothing before reuse. Call a physician if irritation occurs.

First Aid For Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call a physician.

First Aid For Ingestion: If swallowed, call a physician immediately.

Section V. Fire and Explosion Data

Flammability: Non-Flamable

Flash Points: Not Applicable

Auto-Ignition: Not Applicable

Flammable Limits: Not Applicable

Extinguishing Media: Water, Carbon Dioxide & Foam

Fire Fighting Procedure: In case of fire, wear NIOSH approved self-contained breathing apparatus (SCBA) with full-face piece, operated in the positive pressure mode. Wear full protective clothing.

Fire/Explosion Hazards: Move container from the fire area, if possible. Cool fire exposed containers with water well after the fire is out. For massive fire in a storage area use an unmanned hose holder. Flooding is best technique.

Section VI. Accidental Release Measures

Spill Or Leak Procedures: Utilize recommended protective clothing and equipment. Clean spills in a manner that does not disperse dust into the air. Spill area can be washed with water. Collect wash water for approved disposal. Keep from entering water or ground water

Section VII. Handling and Storage

Storage Temperatures: Store at ambient temperature

Shelf Life: Unlimited in tightly closed container.

Special Sensitivity: None

Handling/Storage Precautions: Avoid breathing dust. Avoid getting in eyes or on skin. Wash thoroughly after handling. Store in a dry place away from direct sunlight, heat and incompatible materials (see Section X). Reseal containers immediately after use. Store away from food and beverages.

Section VIII. Exposure Controls/Personal Protection

Eye Protection: Safety glasses or goggles.

Skin Protection: PVC gloves with impervious boots, apron or coveralls. Employees should wash their hands and face before eating, drinking or using tobacco products.

Respirator: Ambient concentrations should be monitored and if the recommended exposure limit is exceeded, a NIOSH/MSHA approved dust respirator must be worn.

Ventilation: Use local ventilation if dusting is a problem, to maintain air levels below the recommended exposure limit.

Additional Protective Measures: Emergency showers and eye wash stations should be available. Educate and train employees in the safe use and handling of hazardous chemicals.

Section IX. Physical and Chemical Properties

Physical Form: Crystalline

Color: White

Odor: Odorless

Molecular Weight: 68.51

Boiling Point: Decomposes 240°C

Melting/Freezing Point: 89°C

Solubility In Water: Soluble

Specific Gravity: Not Established

Section X. Stability And Reactivity

Stability: Stable

Hazardous Polymerization: Will Not occur

Incompatibilities: Oxidizing agents & bases

Instable Conditions: Excessive temperatures (see Incompatibilities).

Decomposition Temperature: Decomposes 240°C

Decomposition products: Nitrogen oxides & hydrogen chloride gas

Section XI. Toxicological Information

RTECS Number: MV4625000

Routes of Exposure: Eye contact. Ingestion. Inhalation. Skin contact.

Toxicity Data: This material has not been fully tested

Chronic Toxic Effects: Carcinogen. May alter genetic material

Acute Toxic Effects: May be fatal if inhaled, swallowed, or absorbed through skin. Material is extremely destructive to tissue of the mucous membranes and upper respiratory tract, eyes and skin. Inhalation may be fatal as a result of spasm, inflammation and edema of the larynx and bronchi, chemical pneumonitis and pulmonary edema. Symptoms of exposure may include burning sensation, coughing, wheezing, laryngitis, and shortness of breath, headache, nausea and vomiting. May cause allergic reaction. Can cause CNS depression. May cause convulsions.

Section XII. Ecological Information

Ecotoxicity: Not available at this time.

Section XIII. Disposal Considerations

Waste Disposal Method: Waste disposal should be in accordance with existing federal, state and local environmental regulations.

Section XIV. Transportation Information

Proper Shipping Name: Toxic Solid, Inorganic, n.o.s. (Hydrazine monohydrochloride)

UN Number: 3288

Class: 6.1

P.G.: III

Label Code: 6.1

Reportable Quantity: RQ 1(0.454)

Section XV. Regulatory Information

OSHA Status: This product is hazardous under the criteria of the Federal OSHA Hazard Communication Standard 29 CFR 1910.1200.

TSCA Chemical Inventory: This compound is on the EPA Toxic Substance Control Act (TSCA) inventory List

California Proposition 65: This product contains levels of listed substances, which the state of California has found to cause cancer, birth defects or other reproductive effects.

SARA 313 Title III:

Section 302 Extremely Hazardous Substances: None

Section 311/312 Hazardous Categories: None

Section 313 Toxic Chemicals: This product may be subjected to SARA section 313 reporting requirements.

Section XVI. Other Information
